Full Stack Developer with 2 years of experience as a Front-End specialist in React. Proficient in NextJS as the primary framework and its significant impact on SEO best practices. Skilled in configuring VPS servers on Ubuntu/Linux for web projects deployments, integrations for product or service payments using PayPal/Stripe/MercadoPago. All of these technical skills have been cultivated in a startup environment, allowing me to develop soft skills such as adaptability, agile learning, time management, leadership, cooperation, and autonomy in my development work.
